### Comments

As I have had this unwanted hair for a number of years I had to have quite a number of treatments which lasted over a period of about nine months.

I had a lot of very strong dark hair; and after only a couple of treatments saw a big improvement.

I found the treatment quite uncomfortable but am really pleased and relieved that I decided to have it done.

I am really pleased with the results as after nine months my dark hairs have gone completely.

I found Tej friendly and efficient throughout my treatment.
