Hair colour & Type	Dark and strong thick, long down
Number of Treatments	4 - monthly treatments

## Comments

I am very pleased with the result of the VPL Hair Removal Treatment on my unwanted facial hair.

After having only four monthly treatments the strong black hairs on my chin (which I had to pluck almost daily) have gone, and I have much finer down on my upper lip and cheeks, previously I had to keep cutting them weekly as the hairs were thick and long.

I also wish to say that Tej dealt with my problem in a very professional manner.

For me - this treatment has given me back my confidence, as I was so ~~embarrassed~~ <sup>embarrassed</sup> about my facial hair, and I would heartily recommend this laser treatment to anyone with the same problem.
